

# AS/A level Health and Social Care

## Why choose to study Health & Social Care?

If you are interested in studying for a career in primary school teaching, nursing, midwifery, occupational therapy, radiography, physiotherapy, social work, nursery nursing, health education/promotion, psychology or caring for the elderly or disabled, or any other roles in health, social care or education, then this is the course for you!

The course consists of the following elements:-

### AS

- |        |  |                     |
|--------|--|---------------------|
| Unit 1 | Promoting Quality Care and Communication | Written examination |
| Unit 2 | Promoting Good Health                    | Coursework          |

### A2

- |        |   |                                |
|--------|---|--------------------------------|
| Unit 7 | Provision of Health, Social Care and Children's Service | External Coursework Assignment |
| Unit 9 | Working in Health and Social Care                       | Coursework                     |

Among other subjects that would go well with Health and Social Care are Biology, Human Biology, English and Sociology.
